SAAB 93 B

The driving position is comfortable and the gear shift, turn signal switch and hand brake are easily accessible. The well-designed instrument panel is amply equipped and all instruments are easy to read while driving. Precision steering and a non-divided windshield are additional features that contribute to making the SAAB 93 B a *comfortable and safe* car.

roomy attractive well-built

The sturdy, all-welded body is of aerodynamically correct shape and the exceptionally efficient suspension system makes the SAAB 93 B a safe and speedy car — a car that tackles hilly dirt roads and long open stretches with equal ease.

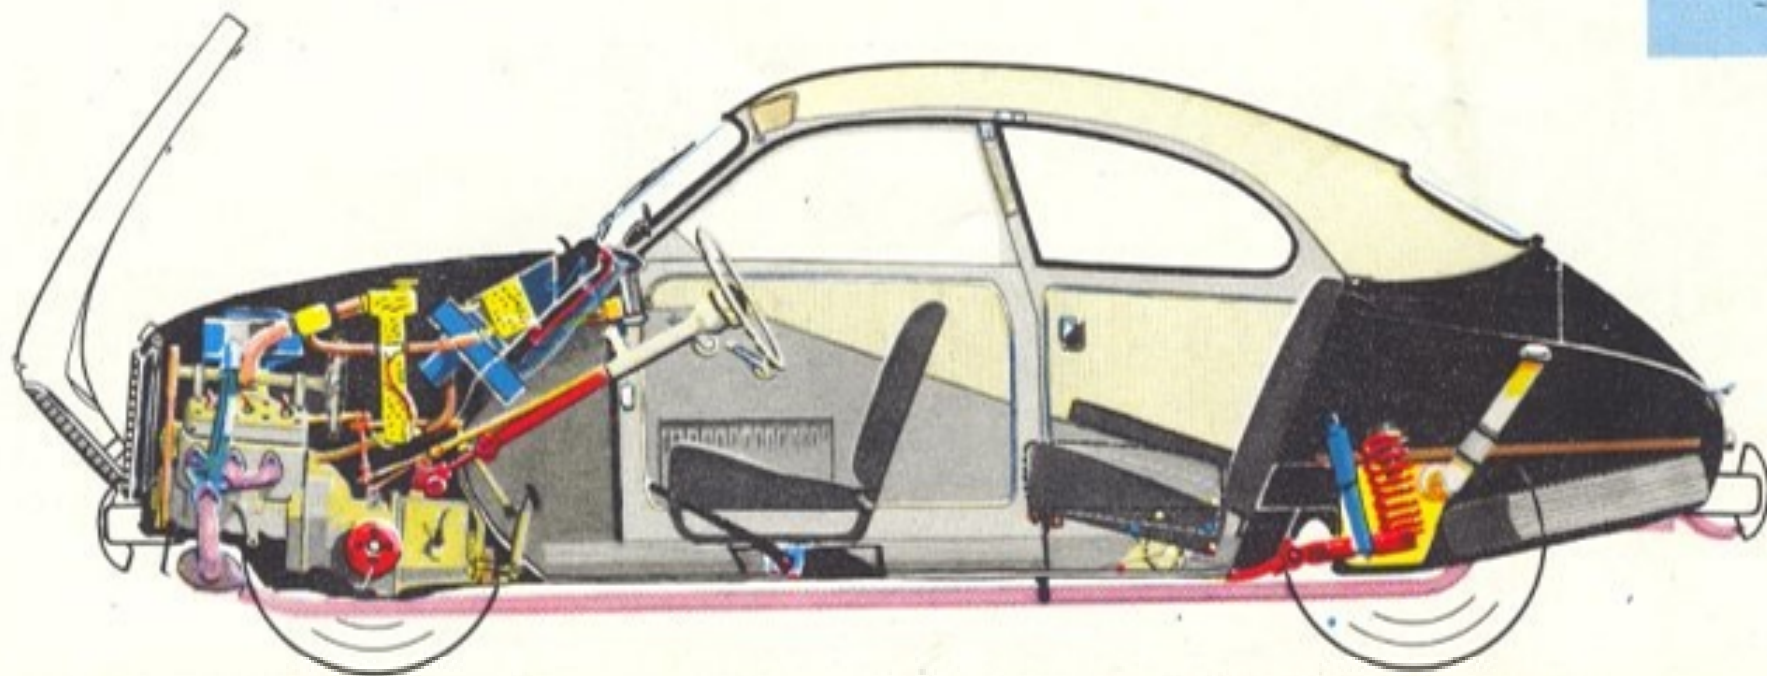

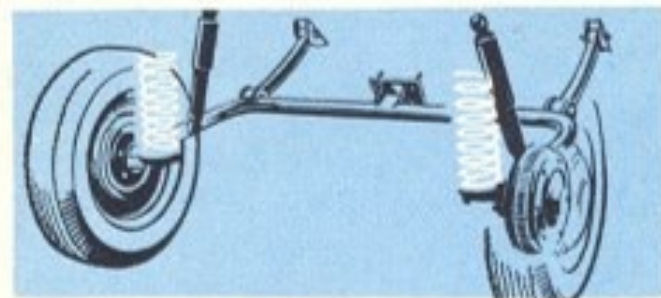

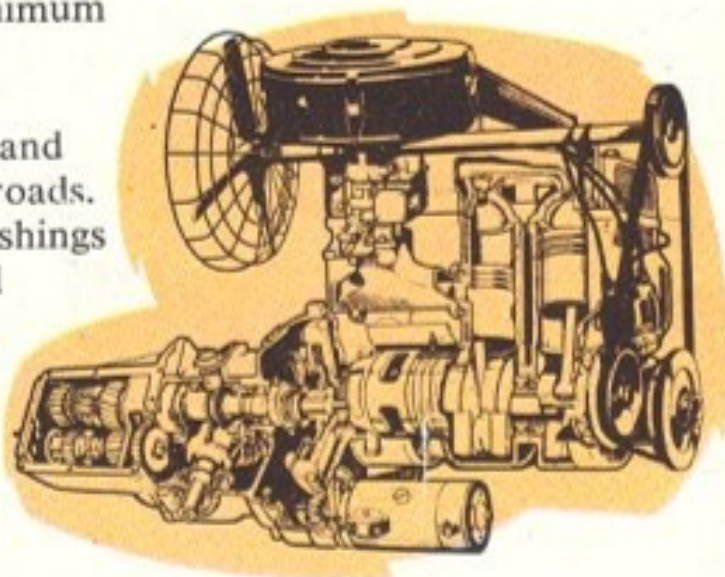

The SAAB 93 B is a roomy family car and affords plenty of legroom for both front- and rear-seat passengers. The front seats are adjustable fore and aft, while the rear seat can be adjusted to three different heights. With the aid of the bed outfit and by moving the seats and back-rests, the SAAB can be made into "bedroom for three" within a matter of minutes.

The **engine** is a water-cooled, three-cylinder two-stroke with a minimum of moving parts.

The **suspension** gives a smooth and comfortable ride even on bad roads. The employment of rubber bushings and bearings has reduced road noise and the number of lubrication points.

The **body** is undercoated at the factory.

TECHNICAL DATA:

Type: SAAB 93 B. *Body:* 2-door sedan, unit-construction body of steel. *Engine:* 3 cylinder, water-cooled 2-stroke engine. Cylinder volume: 46 cu.in. (748 cc.). *Power:* (SAE) 38 b.h.p. at 5,000 r.p.m. (DIN) 33 b.h.p. at 4,200 r.p.m. *Gear box:* Three forward speeds and reverse. Synchronized between 2nd and 3rd. Free-wheel which can be locked from the driver's seat. *Fuel system:* Down-draft carburetor. Electric

fuel pump. Fuel tank at rear, capacity $9\frac{1}{2}$ U.S. gallons (36 litres). *Cooling system:* Water-cooled with pump circulation. Fan, thermostat. Capacity 7 quarts (6.5 litres). *Suspension:* Coil springs, rubber bushed links, telescopic shock absorbers, stabilizers. *Brake system:* Hydraulic on all 4 wheels. Mechanical handbrake. *Tires:* 5.00 x 15" tubeless. *Electrical system:* 12 V. *Exhaust system:* Primary and secondary silencers. *Steering:* Rack and pinion. Ratio 14:1.

Dimensions and weights:

Overall length over bumpers	13' 2"	4010 mm.
Overall width	5' 2"	1570 "
Overall height, empty..	4' 10"	1470 "
Ground clearance at a weight of 1960 lbs...	7 $\frac{1}{2}$ "	190 "
Track, front and rear..	4'	1220 "
Wheelbase	8' 2"	2488 "
Turning radius	18'	5.5 m.
Weight empty (without fuel and water)	1735 lbs.	787 kg.
Weight empty (with fuel, water, tools and spare wheel)	1806 lbs.	820 "
Luggage space	12 cu.ft.	300 dm ³

Saab Aircraft Company reserve the right to make alterations to the equipment and specifications.

Ample room for four persons' luggage on long trips. Using a parcel outfit the SAAB 93 B can be quickly converted into a roomy van.
